Projects

Doctor's Personal Website – *React, Tailwind CSS*

GitHub | Live Demo

- Built a responsive personal website for an internal medicine doctor.
- Developed sections including hero, about, contact form, and services.
- Used Tailwind for consistent styling and mobile-first responsiveness.

E-commerce App – *React, Tailwind CSS, API*

GitHub | Live Demo

- Developed a full e-commerce store with 30+ product listings.
- Implemented dynamic product rendering, cart functionality, and local authentication.
- Reduced checkout time by 30% with intuitive UI and optimized routing.

Experience

Freelance Front-End Developer

Remote | Jan 2025 – Present

- Built multiple responsive websites for individuals and small businesses.
- Translated design mockups into functional React components.
- Delivered solutions using Git for version control and Vite for fast builds.
